PROGRAM YR : 89

25X1 REQUIREMENT : NARROW BAND SECURE FACSIMILE SERVICE [REDACTED]
25X1 [REDACTED]

THESE ARE COMMUNICATIONS SERVICES FOR ONGOING INITIATIVES

25X1 COMMENT : [REDACTED] bandwidth is very limited and until the mid 1990's,
25X1 facsimile service (as well as many other data services)
can only be handled on an emergency basis or an "after-
hours" basis.Once MERCURY is installed at these sites, then this
requirement can be supported by the MERCURY terminal.However, since MERCURY will not be installed, worldwide,
until the mid 1990's, a separate dedicated link should be
installed to support this requirement. The cost estimates
below are for each secure link between Hqs. and one of
the above-named sites.RESPONSIBLE DESCRIPTION
